

## Civil Field Technician

RDM International is a small fast-growing engineering, technology and research firm in the Northern Virginia area. Our firm specializes in civil engineering projects conducting pavement testing, inspections, and material collection analysis on international airports and military installations across the country and abroad. Our team of professionals are located throughout the country with many advancement opportunities.

### **Job Description:**

Looking to immediately hire a Civil Field Technician that is eager, energetic, and self-starter. The successful candidate shall provide project support and pavement testing using advanced technical equipment for data collection. Required to complete data quality management/testing and quality assurance while maintaining all technical equipment with some mechanical and computer automated experience. We will provide two weeks of hands-on training as well as four weeks of on-the-job training.

### **Detailed Work Activities**

- Conduct non-destructive testing on pavement surfaces at airports and roadways across the US (upon completion of a training program)
- Conduct visual pavement distress inspections using automated handheld GPS data collection with GIS technology on airfields and military installations (upon completion of a training program)
- Assist with coordinating and participating in field activities
- Equipment maintenance
- Material collection analysis with trailer mounted coring rig equipment on airports and roadways.
- Travel opportunities
- Hauling equipment to and from job site locations

### **Skills and Abilities**

- Self-motivated
- Excellent oral and written communication skills in English
- Ability to troubleshoot and problem solve
- Organized and trustworthy
- Ability to learn and adapt quickly to situations
- Versed in software applications and computer programs
- Lift up to 50lbs

### **Required Qualifications and Educations:**

- US Citizenship required
- State Driver's License
- Minimum 2-year college education or equivalent years of relevant experience

- Able to pass background check required for obtaining security clearance for airport and U.S. government contracts
- While not required, experience with the following is preferred:
  - Field data collecting
  - Surveying
  - ArcGIS
  - AutoCAD
  - Pavement Experience or Civil Construction Background

**Salary and Benefits:**

- Competitive Salary based on qualifications and experience
- Medical, Vision, and Dental Insurance
- Profit Sharing and 401k (upon meeting minimum criteria)
- Paid Vacation
- Paid Sick Time
